

## SPEAKING Rich and poor

*This photo was taken in Johannesburg.*

Two joggers often see a man looking for something to eat in the rubbish bins. One day the man is jogging on his own and sees him at the end of his run. He decides to speak to the man.

**Jogger** I've often seen you here in this part of town. Perhaps I can ask you something ...

**Man** Oh, how nice that you want to talk to me. Most people just don't look at me or tell me to go away.

**Jogger** ...

*Prepare a dialogue between the two men in which they talk about their lives. They should describe where they live, talk about their families, their problems and their hopes and fears for the future.*
